Contact Lens

Dear John,

After a rather lack luster summer, fall is here and winter can't be too far behind. This time of year is frequently when companies have their "open enrollment" period. This means that you may need to make decisions about the amount of money to put away in your Flexible Spending Account or Health Savings Account.

To this end, we've set up an expense estimation tool for you and Erin to use to make these calculations. We can help you estimate your 2010 eye care and eye wear expenses so that you don't run short or have excess funds in these accounts at the end of next year.

Remember that you can follow us on Twitter @warreneyecare as well as on [Facebook](#) and [Yelp](#).

You can also read [Dr. Warren's Blog](#) to see what he's been thinking about and reading as well as listening to (podcasts that is).

We work hard to keep [our website](#) up to date and fresh, please pay us a quick virtual visit!

Contact Lens Test Drive Event

Learn And Experience Contact Lenses

Because of the considerable and constant advances in contact lens technology, many patients who have previously been told that they cannot wear contact lenses may now be able to experience the visual freedom that successful contact lens wear provides.

In order to allow our patients to experience first hand what contact lens wear is like, we are holding our first ever "Contact Lens Test Drive Event". During this event, we will provide interested patients with a chance to try out contact lenses for themselves.
